PROFILE

I am a final year student looking forward to growing my skillset by contributing towards positive and impactful development.

EMPLOYMENT HISTORY

Intern software developer at Payment 24, cape town
July 2021 — Present

I am currently undergoing a 6 month internship at Payment 24. As an intern, I am deeply exposed to the following programming technologies:

- **Unit testing** - testing code to ensure that the finest code can head out for deployment.
- **API's** - I have learnt how to communicate with various API endpoints and performed get and post requests. These requests were used to test code with parameters to emulate a real world end-user experience.
- **DBMS** - Completed stored procedures in SQL.

Commercial and Movie Extra at Funky Lemon, cape town
January 2018 — January 2021

I have participated in multiple commercial, series and movies, in which I have learnt to be punctual.

EDUCATION

Diploma: Information and Communication Technology in Applications Technology, Cape Peninsula University of Technology, cape town
January 2019 — Present

VOLUNTEERING EXPERIENCE

Youth Group co-Leader at ISKCON , cape town
January 2019 — Present

I am a co-leader at the local Hare Krishna temple in Cape Town. My responsibilities are to host and facilitate events in order to keep the youth inspired and focused on living a life dedicated to serving the Supreme along with creating informative digital media namely via social media.

Food For Life, cape town
January 2010 — Present

I often volunteer at Food for Life, a nonsectarian organization distributing approximately 15 000 plates of Vegan/ Vegetarian meals every week to those in need. An important part of my life is to give back to those in the need. Being part of such an impactful organization has truly allowed see some immense character growth i.e increase in my work ethic, along with naturally going beyond the call of duty.
